BOOK Supplies for Personalization:

1. **Papers:** various light weight papers to cover your inside pages with; i.e. tissues, background papers, scrapbook papers, vintage papers, book pages, etc.
2. **Focal Point:** This is going to be what gives the eye candy/statement for the front of your book. What draws the viewer into your piece. *Example; image, glove, bezel, words, wood pieces, found objects, wire, metal containers, old paint brushes, you could draw an image if you prefer and paint that as your focal, cardboard pieces, etc.*
3. **Images/photos:** {that you wish to incorporate into your book }I would recommend that they are printed with permanent inks. This will prevent them from smearing.
4. **Embellishments:** buttons, trims, fabric snips, words, envelopes, ribbon, images, leaves, old album pages, etc. This is a preference thing, so it is optional.
5. **Favorite stencils.** I like to work with; Seth Apter Stencils <http://www.sethapter.com/catalog/my-stencils>
